Languages and Technologies

- Javascript; Typescript; React 18; NodeJS; Express 4; MongoDB; Mongoose; PostgreSQL; Firebase; AWS Lambda; AWS CloudFront; AWS API gateway; HTML; CSS; Tailwindcss; Git; GitHub; GitHub Actions; DynamoDB; Mocha; Chai; Supertest

Projects

PolishByCin: https://www.polishbycin.com

2024

- Deployed full stack web-application for booking appointments for a beauty service (nail services)
- Developed with typescript (ReactJS, ExpressJS), PostgreSQL, and Tailwindcss
- API developed using RESTful architecture
- Optimized email notification feature resulting in 50% decrease in notification delivery time
- Increased performance for photo gallery by caching response and reducing calls to Instagram API
- Developed with focus on different user experiences
- https://github.com/ryanpv/beauty-service-app

2023

WorldAnime: https://mal-simplified.web.app/

- Deployed full stack web-app that showcases information for anime titles, including their trailers
- Developed with ReactJS, Express, Firebase, and Cloud Firestore database
- Deployed with Firebase Hosting and Firebase Functions with Continuous Integration/Continuous Delivery (CI/CD) pipeline through GitHub Actions
- Optimized for scalability with CRUD operations through data caching and pagination
- https://github.com/ryanpv/mal-simp-api / https://github.com/ryanpv/mal-simp

2023

Video Streaming Server:

- https://github.com/ryanpv/node-video-streamer **/ BLOG:** https://ryanvoong.dev/#/blogs/expressjs-video-streaming-server-with-aws
- Express server that securely streams videos through AWS CloudFront signed URLs
- Optimized performance by converting media to use HLS (HTTP Live Streaming) protocol to stream video content
- Optimized performance and scalability by using CloudFront CDN and edge-optimized API gateway
- Developed with AWS services: CloudFront, API gateway, Lambda

2022-2023

Reddit Bookmark Manager:

- https://github.com/ryanpv/reddit-bookmark-manager-client / https://github.com/ryanpv/reddit-bm-api
- Full stack web-app developed with ReactJS and Express that allows users to sync Reddit their reddit account and organize saved posts in custom categories
- Improved performance by implementing pagination for fetched data from Reddit API and MongoDB

Additional Experience

2016-Current

- Nursing leadership – Redesigned clinic flow plan for mass vaccination clinic to increase clinic performance by 10-15% as well as client and staff satisfaction
- Provided training and mentorship to registered nurses in an acute care setting
